ABOUT ME

Creating art in a realistic fashion has always been an artistic passion of mine. I am a 3D generalist that has a strong focus towards achieving a high standard of work while aiming to be a reliable and efficient artist. I aim to communicate effectively with team members and adapt to different projects and I am always looking to build on my creative and technical skills as an artist.

Outside of 3D I have a passion for photography, music and technology.

EXPERIENCE

- Glass Canvas, Junior Visualiser, February 2015 – Present
