RUSSIAN STANDARD VODKA

A 3 day personal project, 3D visualising the Russian Gold Standard bottle and packaging.

F A R G O

A personal project recreating Lou's Coffee Shop from the TV series ' Fargo (2014)' in full 3D.

THE 09:15

A minute short film created in a group of 4 for a university final year project.

My role in the project was to model, texture and light the interior of the train. It was important to get the size and proportions of the interior as accurate as possible, so the green screened passengers aligned with the CGI.

The film and 3D breakdown can be found on my website: timtang.co.uk
